

# NEW! FREE SUPPORT FORUM!

Be sure to sign up to the **FREE** PLRBlogs.com Support Forum - Register here: [PLRBlogs.com Support Forum](http://PLRBlogs.com/SupportForum).

There's no obligation to join but, I will be announcing some cool stuff there that my customers may like to know about so, I do recommend you join and/or stop by on occasion. Even though I prefer an email for support issues, you can ask for help in the forum too.

Please Note: Joining the forum does require me to **manually approve** you due to recent spammers trying to join the forum. Sorry for any inconvenience but if you joined and haven't been approved, please drop me an email.

## PLR Blogs Documentation

**Please Note:** As of December 20, 2010 I have purchased Backup Buddy which would cost you \$150 for an unlimited use license that I am **giving to you FOR FREE** so that you can quickly install your blogs without having to purchase WP Twin! Yes, I have a developer's version and have confirmed with the plugin's creators that I may include in my blog package. I'm an honest marketer, just to make that clear! :)

Using the Theme Only (stand alone) On a Different Blog: For example, if you want to install the theme on a different niche blog than what comes with this package, you'll need to include at least the **Slideshow Plugin**. Although optional, the **Custom Post Templates** plugin is required if you want to use the Sales Page (full width) Post template. You can refer to **Video 6 - Stand Alone Theme** for reference.

## Start Here

The easiest way to proceed is to start with each video located in the Videos folder that came with the package.

1. **Video #1:** This intro video goes over everything included and where to start.
2. **Video #2:** This video demonstrates installing your blog(s) using the Backup Buddy / importbuddy.php script.
3. **Video #3:** This video demonstrates changing emails and a general overall theme demo.
4. **Video #4:** This video demonstrates the theme, changing Clickbank and AdSense info and an overall plugin overview.
5. **Video #5:** Finally, this video discusses using the Stand Alone theme on a separate blog.
6. **Video #6:** Bonus video

17. **YouTube Embed** - <http://wordpress.org/extend/plugins/youtube-embed/>
18. **Backup Buddy** - Premium plugin, included with these blogs
19. **Slideshow (a Display Buddy plugin)** - Premium plugin, included with this particular theme.

Plugins 1-17 listed above are FREE! Plugins 18 & 19 are free for you to use as I own the developer's license. They are paid-for plugins but with these blogs you are free to use them including if/when you sell a blog.

**Please Note:** The Backup Buddy and Slideshow (Display Buddy) plugins may say a new version is available for download but I have found the updating the license key with all the different blogs my customers will be installing has made it difficult to keep these plugins up to date. However, don't worry. They do what they're supposed to do and that's what matters. Unlike free plugins from the Wordpress plugin depository, paid-for plugins usually require a key but the keys associated with these plugins are domain specific so it would be too challenging to keep sending out keys. Just know they work, and as long as they do, then all is well. :)

## Where To Get Images?

### **Royalty Free Images**

1. **BigStockPhoto**
  - Go to [BigStockPhoto.com](http://BigStockPhoto.com) and register. Images are not free but they are high quality and are royalty free so if you decide to add new images to these blogs and resell them, you can use images from this website. However, be sure to read their TOS to make sure you abide by their Terms.

### **Royalty Free Images**

1. **SXC.hu**
  - You'll find some decent images for free on this website. Most images are free to use for personal and commercial use however there are some images that may have some restrictions so just pay attention before you download.
2. **MorgueFile.com**
  - This is another source of free images. Like SXC.hu, they are mostly free (if not 100% free) to use for any project. Keep in mind that most of these sites don't offer super high quality images but they are good resources to use if needed.

## PLR Articles Info

*Each PLR Blog comes with 25 articles. You have **FULL PLR rights** with each article and can sell, give away, and re-use any way you like.*

**Please Note:** As these articles are PLR, it is **highly recommended** you rewrite each article on each blog at least 30% to make them more unique in the eyes of the Search Engines. Or, simply replace the articles with ones you write or outsource. You CAN still rank with PLR articles but the above advice is recommended.

## Support Information

If you are having any trouble with any of the blogs, please send a support request email to: [supportcontact@plrblogs.com](mailto:supportcontact@plrblogs.com)
